Old way of watching TV

- Getting all of your channels via 1 cable provider
- Check the TV guide for what time your show is on and be sure to be home on Wednesday at 8pm to watch it!
- One size fits all

New way of watching TV

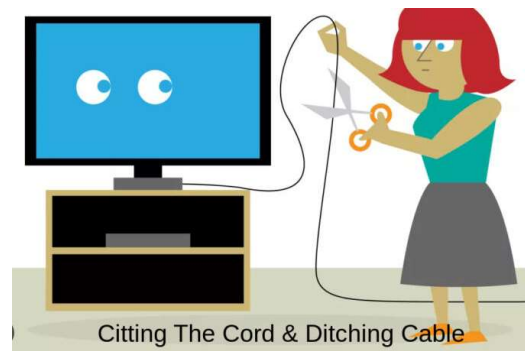

- No cable company at all
- All TV viewing via streaming
- Individualized plans

February 2025:

[TVTechnology](#) reports that 56 million (46%) of U.S. internet households are either cord-cutters or cord-nevers. [@](#)

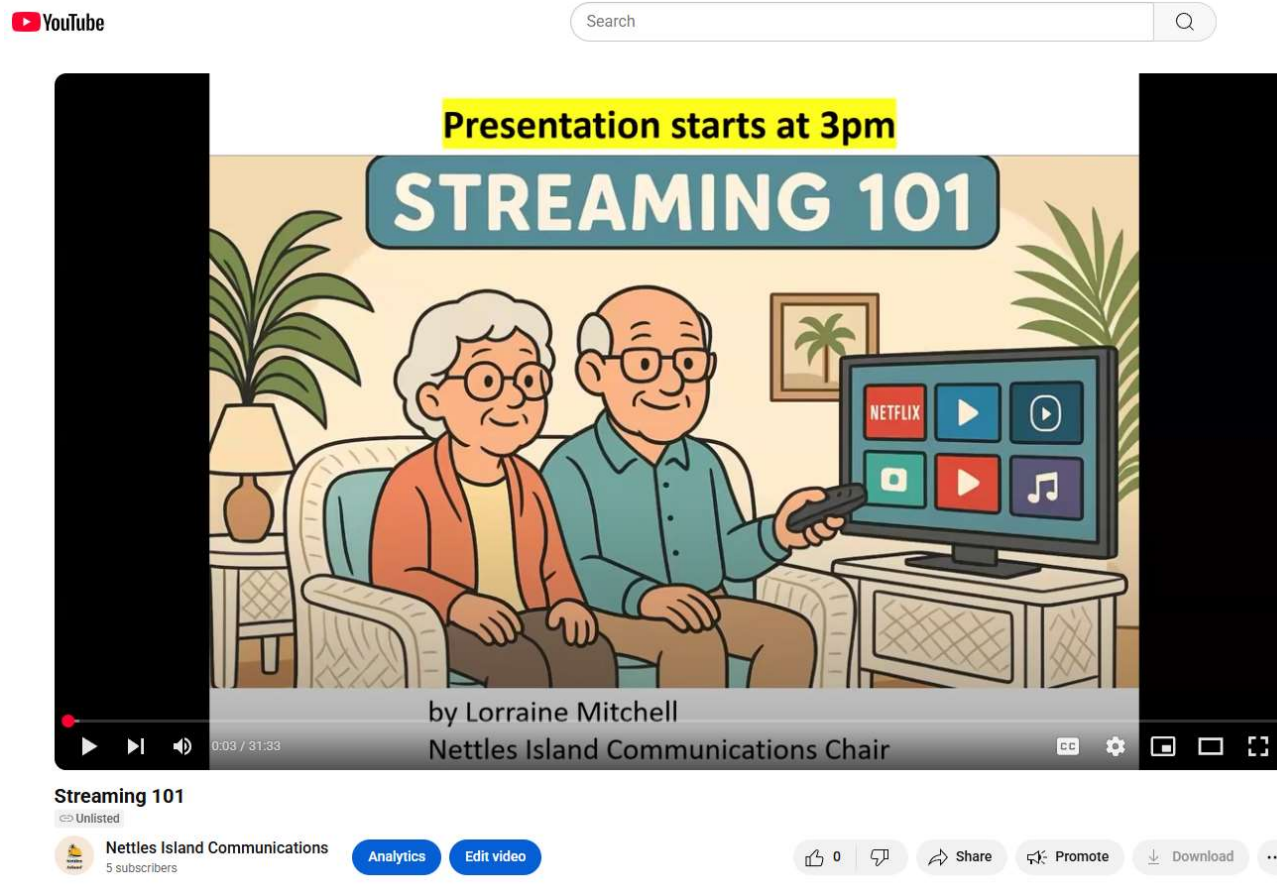

Early 2025:

[SmartBrief](#) projects that by 2028, 76% of U.S. homes will have cut the cord. [@](#)

Think: Cable = limited library. Streaming = endless library.

Don't understand what streaming TV is?

If you are not comfortable using ChatGpt:

- Come to the Rec Hall Lobby and bring your list of “must have” channels to the Communications Committee rep. We aim to have reps in the Rec Hall at least once a week from now until the beginning of “season”.
- OR Send an email with the list of your “must have” channels to NettlesLorraine288@gmail.com I will send you the details of your most economical package. If I get flooded with emails it may take a few days to get back to you, but I promise I will reply to everyone!
- Check the Activities Bulletin or the Nettles Island Communications Facebook page for current list of dates for Communications rep in the Rec Hall.

Why don't we have reps from Blue Stream in the Rec Hall?
